

July 2010

Welcome to Mrs. Skraby's Fifth Grade!

We have an exciting year ahead of us.

One of the highlights of our year is attending Astrocamp in Idywyld in the spring.

This year it snowed while we were there so we were able to make some snowballs. It was really fun. You can look forward to riding a zipline and creating a communications satellite as if you were an astronaut.

Don't forget to read at least 300 pages this summer. You can read anything that you like such as mysteries, adventure stories, or biographies. Read anything, just read!!!! Then complete the reading assignment that you can find here. <http://www.sfs-vista.org/ClassNews.htm>

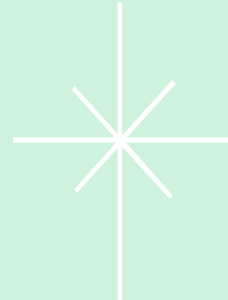

You must have mastered all of your math facts before you return in August. It is very important that you are ready for 5<sup>th</sup> grade math. I will be giving you a timed test on the first day of school. I want everyone to start with a 100% in math.

Check out our 5<sup>th</sup> grade web page throughout the year for information that you will need. Starting this year, parents, you will be getting less information from your kids. They tend to "forget"!

Free math worksheets are available on this website. [www.math-drills.com](http://www.math-drills.com)

Let the adventure begin! (Just not until August)

Mrs. Cindy Skraby
